Steven D. Young, M.D.

Dear Patient,

We appreciate your trust in us and we look forward to seeing you!

Our records indicate that you are scheduled for a consultation appointment with one of our physicians or physician's assistant. In order to facilitate your visit with us, we are enclosing a Patient Questionnaire packet. **It is imperative that you bring this completed information with you to your appointment.** You will also need to arrive 15-20 minutes early. This will allow time for the registration process and any required x-rays to be done prior to your designated appointment time.

Upon arrival, you will also be asked to provide the following information:

- Completed Patient Questionnaire
- Driver's License
- Insurance card(s)
- Diagnostic tests, if any (x-ray, MRI, CT scan, NCV, etc.)

If your x-ray, MRI/CT Scan was taken at one of the following facilities, you will NOT need to bring the films to your visit:

Memorial Hospital Carbondale
St. Joseph's Hospital
Miners Memorial Health Center, WF
Logan Primary Care (Herrin only)

Heartland Regional Medical Center
Cedar Court Imaging
Herrin Hospital
Marshall Browning Hospital
Harrisburg Medical Center

Marion CT & Open MRI
Saline Valley MRI
Hardin County Hospital
Wabash Valley Hospital

Radiology test(s) from any other location should be brought with you.

Worker's Compensation: If you have a work-related injury and intend to claim Worker's Compensation, you will need to contact our Work Comp Coordinator at 618-997-6800 extension 1116 **prior** to your scheduled appointment.

As our patient, you are responsible for providing us with your records, insurance or worker's compensation information. Failure to do so will delay your appointment and it may be necessary to reschedule. If you have any questions, please call 618.997.6800.

Thank you for choosing Orthopaedic Institute of Southern Illinois for your orthopaedic care!
